

## The HdWM Social Leadership Scholarship

Charitable work should be rewarded. Therefore, HdWM developed the Social Leadership Scholarship.

It was founded in cooperation with our partner companies to recognise extraordinary charitable engagement among our students. The partner companies are the donors of this scholarship.

With the Social Leadership Scholarship, HdWM wants to encourage students' intrinsic motivation to get involved in ethnic, social or university supporting projects within and outside the university without shrinking from the responsibility.

The monthly funding amounts to 300 Euros for a least one semester. In addition, this programme is going to form a network of 'social leaders', that persists beyond the time of their studies.

There is no call for applications for this scholarship – eligible students are nominated by the HdWM staff.
